Treat ADHD Without Medication - A Guide For Parents and Teachers

If you have a child who has ADHD, it is important that you first become aware of what ADHD is, what its possible causes are, what it entails for your child, and the treatment options that are available to your son or daughter. This book will help you along your parenting journey, and will lay the foundation you need to move forward and effectively guide your child in managing ADHD.

Frank Facts, the author, writes in such a way that you won't be wasting your time sifting through a bunch of useless content. You are going to get straightforward helpful parenting ideas to help you become the best source of support for your child or teen with adhd.

Attention deficit hyperactivity disorder, more commonly known as adhd, is currently one of the most common neurodevelopmental disorders observed in children and the general population to date. ADHD normally begins in childhood, and its symptoms may continue well into adolescence and adulthood.

Here are Some Things From the Book ADHD Guide For Parents

First off, it's important to remember that the official features characterizing ADHD are inattention, impulsivity, and hyperactivity at a particular degree. Further, there are three subtypes of ADHD; namely, the (a) predominantly hyperactive-impulsive presentation, (b) the predominantly inattentive presentation, and (c) the combined presentation of ADHD.

Parenting is a difficult journey, and having a child with ADHD may be an extremely challenging situation to deal with. But, this doesn't mean that ADHD is a life sentence. There are ways to manage it, and hopefully this book has given you an idea of what you can do moving forward. The important thing to remember is to always keep the faith that things will get better with enough work and perseverance. Most of all, do all of these things with love; you'll find that you will be able to conquer ADHD with your child and forgo an unbreakable bond that nothing can ever come between.

Treatment Options For Your Child That Has ADHD From the Book:

- Behavioral Therapy
- How to Help Your Child Without Drugs or Medication
- Chiropractic Care
- Coping Methods
