Student Affairs Assessment: Theory to Practice Gavin W. Henning, Darby Roberts

With the recognition of the integral role of student affairs in student education, and with stakeholders requiring increasing accountability at a time of tight resources, it has become imperative that staff be familiar with and competent in undertaking assessment. This book provides student affairs staff with the grounding they need to integrate assessment into how they design and monitor the programs, services, and activities they create to contribute to students' development.

For divisions, departments, or units getting started with assessment, the discussion questions at the end of the chapters can engage staff in the process of developing an effective assessment culture.
