Will's life has definitely changed since that day he went hiking in the woods of Pennsylvania. He's discovered that reality is a lot bigger and stranger than he had ever imagined. Learning about the portals that link the infinite number of worlds opened his eyes to that wider reality. Learning that he was being groomed to become the Champion of a God in one of those realities was an even more startling discovery.

But now it's time for him to pay the bill for his recruitment. Just as the Gods on a single world fight and jockey for power and position, the older Gods from the many different spheres of the infinite play a much larger and more complicated game. The Goddess Aryanna has a quest she needs completed, and William and four other Champions are the ones tasked to do it.

What bothers Will however is what could a Goddess possibly need? And why would it take five Champions to retrieve it?
