Check the ingredients label on your nearest soap container. I'm pretty sure you'll see a handful of ingredients on there that you can't even pronounce and quite frankly, don't even know what the heck they are! Isn't that a bit scary? Why are all of those weird chemical ingredients necessary? Do you really want them on your skin? I've asked myself those questions before, and decided it was time to change that. I wanted to actually know what I was putting on my skin every time I wash my hands or take a shower. I wanted to make sure I was "feeding" my skin the nutrients it needed to stay vibrant and beautiful - instead of drying it out and killing it with artificial chemicals! If you're reading this, then you're probably feeling the same way. You don't feel confident putting commercially produced soaps full of chemicals on your skin for the rest of your life. You want to make sure you take good care of your skin so that it stays glowing and ages well. **The solution? It's actually quite simple - make the soap yourself!** When I started making my own homemade soap recipes, everything changed. My skin started looking better, became smoother, and just felt more vibrant. The ingredients were all natural and actually **HEALTHY** for my skin!
