ADVAIR DISKUS (Fluticasone & Salmeterol): Prevents Symptoms of Asthma and Chronic Obstructive Pulmonary Disease (COPD) James Lee Anderson

“Although, your health condition may impact your everyday life, do not let it define who you are.” ADVAIR DISKUS (Fluticasone/salmeterol) is a combination of two medicines that are used to help control the symptoms of asthma and improve breathing. It is used when a patient's asthma has not been controlled sufficiently on other asthma medicines, or when a patient's condition is so severe that more than one medicine is needed every day. This medicine will not relieve an asthma attack that has already started. This medicine is also used to treat air flow blockage and reduce the worsening of chronic obstructive pulmonary disease (COPD). This includes chronic bronchitis and emphysema. Thanks and may you have a good understanding about this drug—ADVAIR DISKUS (Fluticasone/salmeterol). You may want to share this book with your family and friends who may be in need of help and would want to use this medicine. Take care, and as always, be well!
