**Aristotelian FREEDOM: The Art of Judging: Addressing the falsehoods.** Mr. Jesse G. Ziegenhagen  
When we look at the NATURE of something, I think it's kind of like looking into it a little more intensely than just what something appears to be, or is traditionally defined as. This is a book that explores the core questions. What are the KEY definitions? How do those definitions CHANGE over time? In this book, among other things, we'll look at the deeper meanings inside of certain similar seeming words. WHAT is the basic ROOT question of ALL, for human beings on earth?? Is it not the question of ~ What is the NATURE of a conscious being?? What is the NATURE of despising something?? Where does happiness come from? What's the nature of government?? What's the REASON we need one to exist?? When it comes to goodness and evil, is there any universal objective standards that exist, which can truly define them, among and for ALL conscious beings? These are some of the topics of intellectual depth that are explored here.
