ArcView is the world's most widely used Geographic Information Systems (GIS) software. Version 8 is the most significant upgrade to ArcView since its inception--it has been completely redesigned and engineered to be an easy-to-use, fast, modern, and powerful GIS, and requires a new guidebook for all users. Topics covered include organizing data, planning a GIS project, creating derived data, and presenting results. Includes a 180-day fully functioning copy of the software on CD-ROM
For Windows 2000/NT only
