“Reality isn’t real at all, until you make it real” “You’re going to have to suspend that belief that life is happening to you and it’s singled you out to make you feel like a good-for-nothing, unlucky douche bag that fell out with karma on the way to a precarious existence, if you want to tap into the inexhaustible supply of freedom to choose your life just how you want” idumb could be best described as a satirical magnifying glass, shaking its head in dumb founding disbelief that of all the things you could have forgotten, you forgot the most important — you create your own reality. Yes, you read that right. You create your own reality. You are a creator, not a mere survivor of an arbitrary reality dealt to you by God, Mickey Mouse, Daffy duck or Satan. idumb humorously dissects why your life looks the way it does, examining language, thoughts and feelings that prove the most profound, yet most deeply forgotten fact — each word you speak, thought you think and feeling you feel, you are creating your reality. And so you are welcomed into the counterintuitive world of idumb, where you’re about to come nose to nose with an intelligence that can reveal a reality you previously dismissed as a dream. “Let me assure you that life is happening through us collecting our thoughts and feelings and spoken words along the way to convulse through our static idea of reality waking us up amidst a gathering of creation”
