Are you getting married? Are you concerned that you will spend too much on your wedding, or do you not have too much to spend? Are you beginning to suspect that the long line of folks waiting to profit off your special day might not have your best interests in mind? Then this book is for you.

In a concise, powerful series of discussions, this book shows you how to have an amazing wedding for a fraction of the cost of "traditional" weddings (that aren't even really that traditional).

Rather than starting with a conventional wedding and lopping of 10% here and 25% there, this book starts at zero and works up from there. It's possible to get married for \$2000... or \$1000... or even a couple hundred dollars.

This is an extreme guide, for extreme times. If you're going to pay \$30,000 for your wedding no matter what, don't read this book. But if you are interested in doing things YOUR way on YOUR budget, you might want to take a look.
