If you have been led to believe that the phrase "in Christ" is about your personal salvation, personal experience as a Christian or personal experience at Church, you do not know the Apostle Paul but rather a perversion of his doctrine. Paul's conversations about the "body of Christ" or what it meant to be "in Christ" must be understood as it was understood by the audience that first heard it. Without that knowledge the reader has no idea what the term really means. Christians do not know where their ideas come from. They assume that what they believe today is identical to the first-century believing community. This volume will help you to begin to understand how the current Christian beliefs are often not religious at all, but a 'whisper down the lane' version of political ideas and agendas that made their way into theology. Find out what "in Christ" really means – that is if you're trying to follow the real Jesus.
