The Cambridge Handbook of Visuospatial Thinking (Cambridge Handbooks in Psychology)

The Cambridge Handbook of Visuospatial Thinking (Cambridge Handbooks in Psychology)

Visuospatial thinking encompasses a wide range of thinking processes concerning space, whether it be navigating across town, understanding multimedia displays, reading an architectural blueprint or a map. Understanding it and in particular, how people represent and process visual and spatial information, is relevant not only to cognitive psychology but also education, geography, architecture, medicine, design, computer science/artificial intelligence, semiotics and animal cognition. This book presents a broad overview of research that can be applied to basic theoretical and applied/naturalistic contexts.
